

SANTIAGO ROMERO

JUNIOR FULL STACK DEVELOPER

PROFILE

Full Stack Developer focused on building modern, scalable, and results-driven web applications and automating business processes. Experienced in delivering end-to-end solutions from frontend to backend, integrating backend service development, API design and consumption, databases, and modular architectures.

I am known for my discipline, fast learning, and continuous improvement mindset, applying best practices in development, performance, and user experience to build functional products close to real production environments.

EXPERIENCE

Cajasan — Process automation

(Strategic Support Units) Python, Power Automate, n8n, Power BI, PixStudio.

- Design and implementation of process automation for strategic support units, integrating Python, Power Automate, and n8n for workflows, and Power BI/Excel for reporting, resulting in a significant reduction in time spent on manual tasks.

FoodStars — Restaurant Ranking System

(Full Stack | Team Project) Node.js, Express, MongoDB, JWT, MVC Architecture

- Developed a scalable backend API with MVC architecture, implementing JWT authentication, intelligent ranking logic, and advanced data handling with MongoDB (complex queries and transactions), in a collaborative environment using Scrum methodology.

Distrib App — Mobile Commercial Management Application

(Full Stack) React Native, Expo, Supabase, PostgreSQL

- Developed a cross-platform mobile application with React Native and Supabase for comprehensive management of sales, inventory, and credit-based clients, implementing cloud synchronization, real-time reports, and security mechanisms, fully digitalizing and optimizing the operational processes of a distributor.

LANGUAGES

ENGLISH

- B1.1 (continuously improving)

SPANISH

- Native

EDUCATION

- Software Engineering
UNIVERSIDAD DE SANTANDER, CURRENTLY 2026
- Full Stack Software Development Technical Degree
CAMPUSLANDS, FLORIDABLANCA, FEB - NOV 2025
- High School Diploma
INSTITUTO EDUCATIVO SAN JOSÉ DE LA SALLE, 2024

TECH STACK

FRONTEND BACKEND DATABASES

- | | | |
|----------------|----------------|--------------|
| • React | • Node.js | • MySql |
| • Vue.js | • Express | • MongoDB |
| • JavaScript | • Python | • PostgreSQL |
| • TypeScript | • REST APIs | • OracleSql |
| • Tailwind CSS | • JWT | |
| • Next.js | Authentication | |
| • WordPress | | |

TOOLS

- Git
- Vite
- Vercel
- Postman
- Supabase

AUTOMATION

- Python
- Power Automate
- n8n
- Power BI
- PixStudio

SKILLS

- Discipline
- Adaptability
- Fast learner
- Problem solving
- Teamwork
